

Factsheet: Hull Construction.

We see Ship Building as a core part of our Marine Hull Insurance offering. We aim to provide solutions for all types of construction undertaken at a shipyard. Our dedicated underwriting resource is supported by strong relationships with third-party specialist risk management experts and a claims team with experience dealing with builders' risks claims.

We offer flexible customised solutions. We are proud of our knowledge and experience of shipyards, and the risks associated with building ships and offshore units. The risks covered are global and span marine, offshore and naval construction.

Appetite coverage.

We take a 'lead insurer' position on the majority of the contracts we write.
We currently insure over 60 shipyards in more than 15 countries worldwide.
The majority of business is written by Intact Insurance London and the balance through our international network of offices.

We have a long history of underwriting shipbuilding risks and we lead in the market across specialist, conventional and naval builds. We have been at the forefront of this insurance provision for over 40 years and have the capacity to back up our lead underwriting proposition.

We insure shipbuilding across all types, and we also insure units and vessels for the offshore sector, including renewable energy.

Risks can be for full construction, conversion, refit or renovation.

Target audience / customer.

We insure Ship Building across many types:

- Cruise and Passenger ships at dedicated yards, primarily focused today in Europe
- Bespoke and Mega Yachts at dedicated yards through Europe, US, Middle East and Asia
- Production line / Manufacturing: ribs, leisure boats, production line yachts
- Conventional shipbuilding focused on new build yards around the world for Gas Carriers, Bulklers, Tankers, Container and other cargo carrying vessels
- Shipyards building specialist vessels worldwide from scientific, research, and survey vessels through to fishing vessels, dredgers and other complex and bespoke ships
- Shipyards and Governments building Naval vessels and submarines
- Shipyards, Operators and Project Managers building vessels, rigs and units for all offshore segments including renewable energy
