

Risk Assist

Practical tools and guidance to help you run a safer, more resilient business — included as part of your policy.

We know how important it is to keep your people protected, stay compliant and avoid unnecessary disruption.

That's why we provide Risk Assist. Practical support that brings together the tools and guidance you need to manage the risks that affect both your workplace and your team.

What you get

Risk Assist gives you easy to use, step by step guidance across the key areas of risk in your business. With interactive self assessments across:

- Health & Safety
- HR
- Business Continuity and
- Driving Risk.

You'll also get support and tools to help you improve the resilience of your business. Downloadable templates, policies and procedures and regular legislation updates. Access to health & safety and HR specialists through our Ask the Expert service. All designed to make managing risk clearer and more straightforward.

Why your broker is sharing this

We've asked your broker to share Risk Assist on our behalf because prevention beats disruption. Risk Assist is included with your cover and gives you templates, training and expert support to help you avoid incidents and save time. You'll see it with your quote so you can understand the benefits, and again with your policy documents so you can get started straight away.

Self assessments that do the heavy lifting

Our interactive self assessments benchmark where you are, identify improvement opportunities, and create a prioritised action list with links to the exact templates and guidance you need. You'll also get a clear audit trail you can update, download and share.

Clear, actionable guidance - tailored to your world

Access simple, practical advice on the risks that matter most, including:

- Fire safety
- Lifting and manual handling
- Using equipment safely
- Preventing slips and trips and
- Supporting employee wellbeing and performance.

You can also browse sector specific guidance for industries such as construction, retail, hospitality, fleet, manufacturing, professional services and more.

Human Resources — act fairly, protect your business

Our HR support gives you clear, practical guidance to help you handle people issues confidently and fairly. You'll find support and templates covering:

- Contracts
- Performance
- Equality, Diversity & Inclusion
- Recruitment, grievances, attendance and wellbeing.

Plus, tailorable HR documents and Ask the Expert support when you need clarity on more complex issues.

Tools, templates and resources

Use checklists, policy templates and step by step guides across Health & Safety, HR, Business Continuity, Disaster Recovery and Driving Risk. Everything is written clearly to help you stay compliant without complexity.

Ask the Expert support

Our Ask the Expert service gives you unlimited online access to Health & Safety and HR specialists. If you need clarity on a more complex issue, you can submit a question and receive a personalised response — usually within 24 hours (Monday to Friday). Their guidance helps you take the right next step with confidence.

Accredited training your team can use immediately

Choose from a wide range of ROSPA, CPD and NOS accredited e-learning modules — including Health & Safety essentials, fire safety, cyber basics and wellbeing. All included*.

*Adding NOS accreditation to a certificate is optional and costs £5 (+VAT), payable to Proskills Global Ltd.

Why use Risk Assist?

Reduce disruption

Accidents, equipment failures, people issues and safety incidents can halt work and create pressure for your team, ultimately impacting your business. Risk Assist helps you identify risks early. It gives you the tools, training and guidance to put things right quickly so your business keeps moving.

Save time

With access to:

- Self assessments
- Templates
- Incident logs
- Business Continuity tools
- HR guidance and
- e-learning

You can act faster and remove risks sooner — freeing you up to run your business.

Protect your people

Supporting your team and keeping them safe builds confidence, trust and resilience. Risk Assist helps you do that with clear guidance, practical tools and training your people can apply straight away.
