

Marine Cargo and Stock Throughput

From tradesman's tools to multi-national manufacturers, RSA Marine has a Marine Cargo proposition to fit the needs of your clients.

Innovative product package

Our Marine Cargo and Stock Throughput products are specifically designed for all sectors of the import and export industry.

Encompassing our specialist underwriting and claims expertise, we provide an unrivalled service for your clients' goods whilst in transit or in store.

Product covers and tailored solutions

Transit eSolutions meets the needs of small businesses and tradesmen. It's flexible enough to cater for the needs of a wide range of trades, from builders, plumbers and similar tradesmen to retail and manufacturing businesses moving their products and goods around the UK in their own vehicles.

Cargo eSolutions is specifically designed to meet the needs of UK-based businesses that import and/or export raw materials and finished goods worldwide. With cover available for occasional one-off movements or on an annual basis. Uniquely for an online offering, cover is provided on an All Risks wording, with no reference to Institute Cargo Clauses, so it's easier than ever to do business.

For all of our online offerings, not only can you obtain quotes and bind cover in minutes, you can now manage the entire life cycle of the policy, including mid-term adjustments and renewals, and also issue full documentation at the touch of a button.

You can access both Transit eSolutions and Cargo eSolutions at

www.rsaonline.rsagroup.com

Cargo Throughput Solutions is our All Risks wording specifically designed for any size of import and export business. It is uncomplicated, and doesn't incorporate any Institute Cargo Clauses, thus removing the perceived complexity of traditional Marine Cargo insurance.

Cargo Throughput Solutions is not solely available for Stock Throughput requirements but is equally effective for pure Marine Cargo risks.

Cover can include exhibitions, engineers and/or sales reps vehicles and of course worldwide stock exposures.

Simply Cargo is our traditional Marine Cargo product with cover built around Institute Cargo Clauses. Cover is available for any movement of goods, exhibitions, sales or engineers tools and samples, and also for stock as required.

Why RSA?

We have a proud heritage of over 300 years and our Marine proposition is far more extensive than just these products. We have global capability to provide solutions for all your customers' Marine needs and requirements.

RSA Marine has specialist and dedicated underwriting and claims teams with a wealth of experience across the globe. RSA Marine provides you with access to decision-makers, something that is key to keeping your customers moving in the event of any problems. Our local Marine Development Managers provide you with ongoing support and training as required, and our risk management team is on hand to identify, analyse and mitigate risks. In short, RSA has a long heritage of offering global coverage with regional strength and local contacts.

Plain English

At RSA we are constantly refreshing our delivery and products to make it easier for you to do business with us – outlining all we do in plain English.

Fair claims paid promptly

RSA advocates the prompt settlement of every claim and we aim to make timely payments to ensure your clients can keep moving. All of our Marine Cargo propositions are underpinned by our first class Cargo Claims team.

We have an international network of claims agents representing us across the globe, making sure if something does go wrong, we have local support to keep your clients business moving.

We have a dedicated in-house recoveries and risk management team able to provide advice and guidance through any aspect of your policy or claim.

Other Marine products

With extensive underwriting knowledge and experience of the Marine industry, RSA Marine offers solutions for other classes of Marine business such as:

- Freight Liability
- Marine Trades
- Marine Liabilities
- Hull
- Maritime Equipment.
